Joshua Butler

Software Engineer

butlerja.nhs@gmail.com | **LinkedIn** | **GitHub**

SKILLS

Languages: Python, JavaScript, HTML, CSS, SQL, Mongo, JSON, EJS
Libraries and Frameworks: React, Express.js, Django
Databases and other: PostgreSQL, MongoDB, RESTful Routing, JSON API

TECHNICAL PROJECTS

Vampire Fight - GitHub | Vampire Fight - HTML | CSS | JavaScript
Creative play on the traditional Rock Paper Scissors game.
- Developed the application independently, from game logic to the UI.
- Received positive code review from instructional team and peers.
- Creative gameplay and theming.

Bookworm - GitHub | Bookworm - HTML | CSS | JavaScript | MongoDB | Google OAuth | React | Express | Node.js
A social app where anyone can view a library of featured books that are either trending or added from a third-party API.
- Developed the application's functionality and UI with a team of peers.
- Consumed a third-party API to enhance user experience and expand app functionality.
- Collaborated within a team environment utilizing version control (Git) to manage codebase, implemented pull requests, fetched latest code updates, and adhered to branching strategies to ensure efficient workflow in a group project setting.

Been There - GitHub | Been There - HTML | CSS | JavaScript | Django | PostgreSQL | Python
Application designed to log the destinations users have traveled to.
- Independently designed UI and app functionality.
- Received positive code review from instructional team and peers.
- Designed to solve real-world use cases for myself and peers.

RELEVANT EXPERIENCE
